CITY OF NEW YORK
DEPARTMENT OF BUILDINGS

Pursuant to Administrative Code Section 27-131, the following equipment or material
has been found acceptable for use in accordance with the Report of the Material and
Equipment Acceptance (MEA) Division.

Satish K. Babbar, R.A., Acting Commissioner
MEA/E

Report of Material and Equipment Acceptance Division
Manufacturer - Fike Corporation, 784 South 10th Street, Blue Springs, Missouri 64013.
Trade Name - Fike.
Product - Enclosure for Fire Control System.
Permit Code Sections - Subchapter 17 and Reference Standard RS 17-3 thru 17-3c.
Tests - UL 864.
Laboratory - Underwriters Laboratories Inc.,
Test Reports - File S2203, Project 92NK28185 dated March 12, 1996 and revised March 27,
Description - The two and three bay enclosure assemblies are designed to house either the
Fike Cheetah Control Panel or the Fike single Hazard (SHP) Control Panel.
Previously, each of these control panels had its own separate enclosure.

Pursuant to “Promulgation of the Rules relating to Material and Equipment
Application Procedures” dated November 5, 1992, the Bureau of Fire Prevention has no

Recommendations - That the above enclosures be accepted on conditions that all uses,
configurations, arrangements and functions, application and installations shall
comply with the provisions of New York City Building Code, specifically Subchapter
17, and with Reference Standard RS 17-3. Further, the installation shall be in
accordance with the manufacturer’s recommendation, NFPA 72 and UL Standard and
on further condition that:

1. Only the enclosures that are painted red are acceptable. Models #10-055-2 R
and 10-05503 R shall be used to house Fike’s Cheetah control panel or the
Single Hazard panel (SHP).

All shipments and deliveries of such equipment shall be provided with a metal tag,
suitably placed, certifying that the equipment shipped or delivered is equivalent to
that tested and acceptable for use, as provided for in section 27-131 of the Building
Code.

Final Acceptance
